NOTE

Landscape that tempts to splash and jump diving

-Modern landscape depicting space, composition and expansion-

Pool_lower 침병

Last work of 'Pool Series', 'Pool_lower' is drawn to maximize the 'beauty' with the landscape painting. 'Pool' refers to water in landscape painting while 'Lower' symbolizes the space below the ground. Two words are captured with the original intention to interpret the modern landscape and the beauty of nature is expressed as blooming flowers comparing through the wavelength of water when people splash into water. While looking into continuous 'Pool Series', the passion of the artist is depicted by expanding the horizons deeper down in the center.
