

Ellen Alt is a mixed media artist living in New York City. She has had successful exhibitions in many countries including the U.S, Germany, Russia, China, England and the Middle East. One of her pieces was presented to Hillary Clinton on the occasion of the peace treaty between Israel and Jordan and is in the collection of the White House. Her current work is about our melting planetary ice. The contradictory feeling of being swept away by beauty while watching devastation is the compelling motivation for this series. Ms. Alt also organizes community sculpture and mural projects throughout the world. <http://www.ellenalt.com/>, <http://www.ellenaltcommunity.com/>
