

Argentinean artist Maria Teresa Hafford

Embraced the action painting art movement.

At first sight her work, characterized by a powerful emotional content, strikes you as the result of a wild outburst of unleashed passion, the artist, faced to the blank canvass allows strong impetuous brush strokes drippings and smears to flow from unconsciousness in a feast of color and texture

But a careful analysis of each piece reveals the brush of a gifted artist in the careful distribution of bright colored plans to counteract the chaos and provide balance to the final composition in a perfect harmony of light, color and form.
