KIM Yong Hyun 김 용 현

A contemporary artist from Seoul, Kim Yonghyun has a painting and media art background.

The moment of choice, collision between relationship, tension and imbalance play a large role in his work, primarily to observe to occurred energy. He collects various type of those moments and shapes all this energy on canvas, sounds, screen while carrying messages of "what's beyond this?"

Through many years of experimentation, Kim Yonghyun's style has evolved to unique mixture of line and colour of oil paints or Korean ink. The distinctive integration of contrasting layers and colours result in creations that are visually dynamic and energetic.
