## **Artist Statement**

Beautiful goldfish in a fish bowl can takes people's attention. But keep staying in limited space, it can't be free

Goldfish in a bowl shows to us contradiction of beauty and stuffy.

In my view, Duplicity of combined man-made beauty and natural beauty look like contemporary society.

All eyes look the fish in a bowl,

Fish look over the bowl and watch us,

That moment, Beauty and ugliness comes together to us.
