

# KRISTINA SRETKOVA

„My art is Music in Colors, because while I paint I'm singing. I focus on my inner world and listen to the inner voice by taking power, intuition, rhythm, intelligence and inspiration from my soul. Doing that I project my inner light on the canvas. As I feel the colours like different frequencies they cover areas, which are behind the real world we see. I want to deliver to the viewer joy, hope, optimism, gratitude, humor and the ability to love, a push to think about and just to feel!“
