

LEUNG Iat-hong (Hong Kong)

"I like painting, like red, like green. Clay-making is fun. Clay is very soft."

Iat-hong's learning abilities are very high. He is patient and enjoys trying new things. He doesn't only just enjoy dancing and performing, he also enjoys creating artwork. Joining the Art Hub for almost one year, he now develops his works to have a more complete form than before. The staff then encouraged him to join the ceramic classes to continue discover his artistic potential. Normally, Iat-hong is very talkative but when working with clay, he is very quiet because he is busy concentrating on his artwork.
