

Liyang Gallery is located on Shamian Island of Guangzhou city, converted from a European styled historical building with a history of more than 110 years. Keeping original architectural style of the premise at best, Liyang Gallery refurnished the interior decoration. The harmonious combination of the original style and modern comfort renders the gallery the perfect place to showcase artists' oeuvres.

Based on lacquer painting, Liyang Gallery positions lacquer art as the main context. We participate in the preparations and sponsorships of exhibitions of Mr. Qiao Shiguang, who is the pioneer of Chinese modern lacquer painting and professor of Fine Arts of Tsinghua University and publications of relevant catalog. At the same time, we integrate all resources to promote lacquer art. Up to now, we have held "National Exhibition Tour of Half Century's Lacquer Painting Art from Mr. Qiao Shiguang", supported "Language of Lacquer and Sound of Painting-Qiao Shiguang Lacquer Painting Exhibition" in art exhibition hall of National Center for the Performing Arts in 2015, held the 1st "Qiao Shiguang Lacquer Art Innovation Award-Exhibition" in 2016, which make a great influence on the promotion and popularization of lacquer art.

Apart from lacquer art, we pay close attention to the dynamic and development of various arts with an open attitude and creative vision, and carry out various types of exhibitions and activities, thus

**promoting the public's concern and understanding of contemporary art
and culture.**
