We are steadily planning exhibition and displaying a variety of artworks in order to introduce talented artists and their various works of art to the public.

We are playing a role as linkage connecting pieces of art with the public by actively joining diverse art fair.

By harmonizing the artworks of young, characteristic artists with those of well-known artists, we would like to present you with worm emotion and potential energy inside humanity.

We are making an earnest effort to share a deep impression on artworks with you through gallery talk, culture lecture besides exhibition.
