

The Giant Year Gallery focuses on the promotion of local contemporary ceramic art and provides a platform for showcasing the works of emerging artists. The Gallery also features ceramic works from around the world, enriching the cultural palette of its collection. Besides, we also aim at transforming the long-planted idea of ceramic being functional, and hope to highlight the artistic value of ceramic works.

Our Gallery has joined the Asia Contemporary Art Show since 2013, and the artists of our Gallery received much appreciation from the international art market. In March 2016, we will present some Asian artists including Yu Cheung Chung, Tetsuya Ishiyama and Aico Tsumori.
